

Yes, I would like to help create the world I want to live in!

I want to help The SummerTree Institute transform my concern into creative action by supporting its efforts to educate the public about the importance -- and enjoyment-- of conserving our valuable resources in our everyday lives.

Enclosed is my gift of: \$ _____

As a premium for a donation of \$20 or more to The SummerTree Institute's conservation and education programs, you may choose one the following:

WATER-WISE LANDSCAPING DVD - Featuring botanist Robin Kobaly. Contains all the essential information you need to transform your High-Desert property into an enchanting Water-Wise landscape. Includes nearly four hours of hard-to-find expert information, and covers the resources you will need to plan, design, plant, irrigate and maintain an attractive, drought-tolerant landscape.

OR

Ancient Plant Profiles - a 34-page booklet featuring 14 long-lived plants of the Mojave and Colorado Deserts, and what each native plant can do to enhance your garden. Laminated and bound for field durability.

I have enclosed my check, payable to The SummerTree Institute

The SummerTree Institute
